

# Calling all Learners!

Want to help shape the future of qualifications?

Then join one of our groups!

If you're between 14-21 years old and in education, then you can apply to join our **Learner Advisory Group**.

If you're 16+ and currently taking an apprenticeship, a vocational qualification or in work-based learning then you can apply to join our **Vocational/Work-based Learner Group**.

.....

## What do the groups do?

Group members play a key role in helping Qualifications Wales (QW) build relationships with learners and hear first-hand what learners want.

## We expect members to:

- challenge, question and support QW
- help us shape the future of qualifications and the qualification system
- consider learners' thoughts and opinions during discussions

## Interested?
