Dear parents/carers,

Porthcawl Comprehensive School Case Study

Following an audit and review, I am pleased to share a Case Study published by WRAP Cymru about workplace recycling at Porthcawl Comprehensive School.

Since April 2024 all workplaces in Wales have been required to present specified materials separately, and we have aimed to implement a consistent approach to these Workplace Recycling Regulations.

The published Case Study can be accessed here:

This is a true 'whole school approach' – pupils, staff, visitors – and we are proud of the fact that we have been recognised for our commitment to environmental responsibility. This is a collective action and it is something that we will continue to work on and revisit to support sustainability.

Our Case Study will be used to provide guidance and support to other educational settings.

Best wishes,

Mike Stephens
